Zhangzhou factory 210acres

Thailand factory 70acres

- **SiroBuildex,** founded in 2001, is a national high-tech enterprise, specialized in LED lighting for over 20 years. Headquartered in Xiamen, China, we have three manufacturing bases located in Xiamen and Zhangzhou of China, and Chonburi of Thailand, covering a total area of over 300 acres and nearly 300,000 square meters of production workshops, office buildings, R&D centers and CNAS national standard laboratory. Throughout all these years, we have built an industrial chain integrating innovative research and development, intelligent manufacturing and intelligent lighting solution output. With more than 2,000 employees and a monthly production capacity of over 20 million pieces, we have established long-term and stable cooperative relations with mainstream supermarkets and brands in North America, Europe and Asia-Pacific.

- **Highly-qualified Products**

With our rich ODM/OEM experience and proven performance, we are currently a prominent partner of many world famous lighting brands and large international chain stores. We have customers enjoying our products and service over 60 countries and we are one of the main suppliers of LED, CFL and other lighting products in US market.

- **One-Stop Products Selection**

We have developed a full range of LED lighting products from light bulbs to lighting fixtures, covering over a thousand models, which can meet the demands of different markets around the world. We are confident to provide customers with one-stop LED solutions with accredited quality, capacity and variety.

- **Quality Certification**

As a dual-system certified enterprise (ISO9001, ISO14001), we have established access thresholds covering the global mainstream markets:

- ✓ Safety Certification: UL/CUL/ETL/CE/GS-LVD/PSE
- ✓ Energy Efficiency Certification: ENERGY STAR/DLC/EUP/MEPS
- ✓ Regional Certification: CCC/CQC/KC/SAA/C-Tick
- ✓ Professional Certification: CB/ENEC/NOM/PROCELL

Relying on the intelligent manufacturing system and the CNAS standard laboratory, we ensure that each product complies with the technical specifications of various countries. We have now achieved barrier-free access to major lighting markets such as Europe, America, Asia-Pacific, and Latin America.

Strip Light (bare tape)

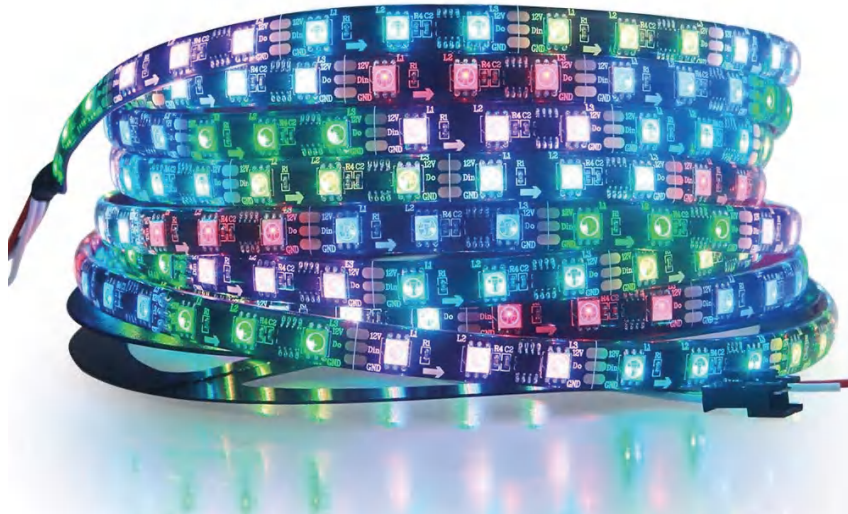

Features

- High quality driver with minimized flickering.
- Flexible and linkable.
- Cuttable, dimmable & safe using low voltage power.
- Widely used in bar, kitchen, shower room, classroom, party, bedroom, kitchen, living room etc.
- Bare tape light without coating or cover.

Strip Light (bare tape)

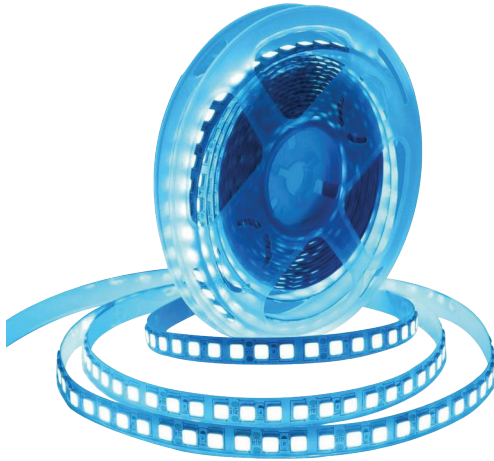

Features

- High quality driver with minimized flickering.
- Flexible and linkable.
- Cuttable, dimmable & safe using low voltage power.
- MULTIPLE CHOICES- RGB or RGB+W LED strip lights support multi-colors that can control the light color, the intensity and settings of custom flashes, strobe, cast iron and flash colors via remote, which will create colorful world for you.
- Widely used in bar, kitchen, shower room, classroom, party, bedroom, kitchen, living room etc.
- Smart control or remote control are available.

Strip Light (bare tape)

Features

- Built in IC for color chasing effect.
- High quality driver with minimized flickering.
- Flexible and linkable.
- Cuttable, dimmable & safe using low voltage power
- Smart RGBIC Effects: RGBIC LED strip lights present stunning segmented colors on a line. It is designed for holiday create a colorful lighting feast to your Halloween decorations and party decor.
- Widely used in bar, kitchen, shower room, classroom, party, bedroom, kitchen, living room etc.
- Smart control or remote control are available.

Ultrathin COB Strip Light

Features

- Slim profile with.
- Mini Wide Size 3mm.
- Min.Bending Diameter: $\phi 60\text{mm}$.
- High quality FPC.
- Different color temperatures are available for selection.
- FPC board connection without soldering.
- White coating is available.

Type	LED Type	Color(K)	Volt(V)	Watt(W)	Luminous Flux(Lm)	Rendering Index (Ra)	PSU/ Converter	Way of control	IP	Cutting Unit	Installation	Dimension
HLLEO-COB-8W-A	COB	3000K 4000K 6500K	24V	8W	700	90	DC24V	RF control	IP20	20MM	3M tape	5000*3*1.6mm

COB Strip Light(white)

Features

- With white or yellow silicon coating.
- Edgelit technology to provide great lighting.
- Super super even lighting performance with no dark spots. Replace traditional SMD LED strip lights, providing higher brightness lighting!
- Ultra-long continuous length can be connectable to satisfy you to decorate large spaces.
- Dimmable & Multifunctional: compatible with triac dimmers and RF/IR remote.
- Easy to DIY: cuttable and connectable. The cut strip light can also be reconnected, which is very convenient for DIY!
- Different coatings are available.

COB Strip Light

Features

- The rgb color flowing striplight has a built-in ic chip that allows multiple colors to be displayed in a single line at the same time.
- Ultra-long continuous length can be connectable to satisfy you to decorate large spaces.
- Dimmable & Multifunctional: compatible with triac dimmers and RF/IR remote.
- Easy to DIY: cuttable and connectable. The cut strip light can also be reconnected, which is very convenient for DIY!
- Different coatings are available.
- Wifi smart control or remote control is available.
- White coating is available.

COB Strip Light

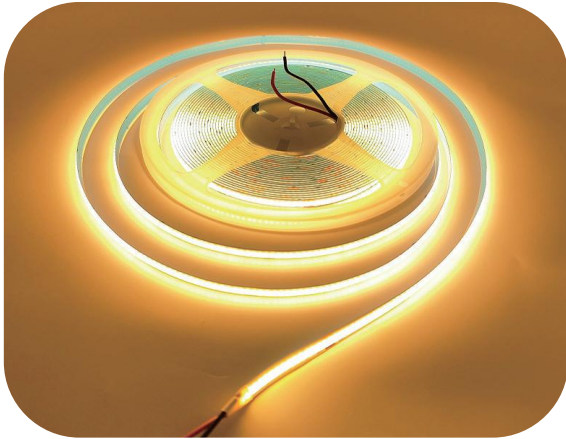

Features

- 5V USB powered.
- Super even lighting performance with no dark spots.
Replace traditional SMD LED strip lights, providing higher brightness lighting!
- Ultra-long continuous length can be connectable to satisfy you to decorate large spaces.
- Dimmable & Multifunctional: compatible with triac dimmers and RF/IR remote.
- Easy to DIY: cuttable and connectable. The cut strip light can also be reconnected, which is very convenient for DIY!
- Different coatings are available.

COB Strip Light

Features

- Motion Sensor Strip Light: In motion sensor mode, it lights up as soon as it detects motion within 10 ft, and automatically turns off if no motion is detected.
- Day & Night 2 Sensor Modes: Day Mode ☀ means the Light up as long as triggered by the motion; Night Mode 🌙 means only light up triggered by the motion in the dark.
- Easy to Install: 3M adhesive can be easily pasted on a smooth surface. The battery box have magnetic strip and comes with 3M double-sided adhesive, which is applicable anywhere.
- Widely Used: It can be widely used in stairs, bedroom, under bed lights, under cabinet lights, kitchen, hallway, around walls, computer lighting, TV back lights, counter lighting, closet lighting, shelf lighting, etc.

Grow Strip Light

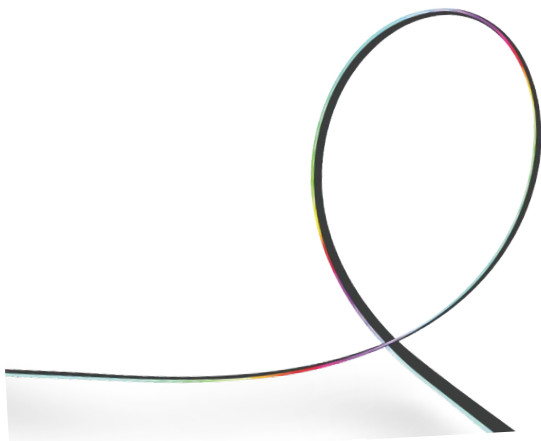

Features

- Energy-saving LED, perfect for hydroponic and soil growth and rated for high humidity use;
- With its adjustable spectrum, can switch color spectrums to match the plants growth stage and increase overall yield and with PAR of up to 16PPF.
- Cooler lamp operation retains moisture and prevents plant burn;
- Link up to 6 light strips for a larger growing footprint;
- Easy installation by simply remove the backing stick to a clean, smooth surface.

Type	LED Type	Color(K)	Volt(V)	Watt(W)	Luminous Flux(Lm)	PSU/ Converter	Way of control	IP	Cutting Unit	Installation	Dimension	PPE	PPF	Dimension

High-voltage input Tape Light

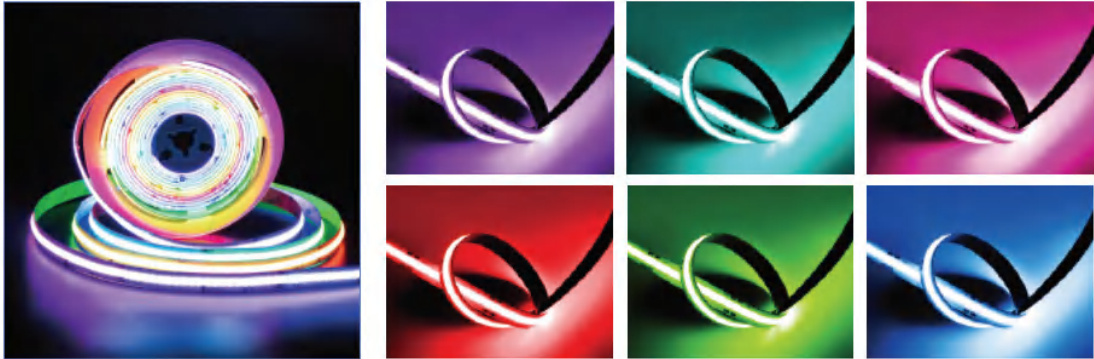

Features

- Super bright and can be used directly by plugging into the AC100V-240V household power supply, and the end will not be dim due to voltage drop.
- Weatherproof with IP65 or IP68 production, which suitable for outdoor work or indoor usage.
- Can be easily folded and installed in the corner. It can also be bent and wrapped around a tree trunk.
- Cuttable: LED strip has a cutting point, which can divide the light strip into many sections.

High-voltage input COB Light

Features

- COB Lights Waterproof with IP65/68.
- Easy to install, Plug and Play. Input directly with local power at AC100~240V.
- Connectable with end to end with their own connectors, no additional connectors are needed to get longer rope lights, easy and convenient to operate.
- Wide range of applications, decorative rope lighting for Christmas, parties, weddings. You can DIY various styles of indoor bedroom, outdoor camping, patio, deck, pool, landscape, garden, restaurant, club, bar, fence, porch.
